What places do you expect to gather signatures?

I, _____, pledge to collect signatures on the official paper petitions assigned to me and return them to the nearest drop-off location, regardless how full. I am pledging to **completely fill** the official paper petitions assigned to me before the expiration date. I will *not* remove the staples. I will instruct signers to sign the official paper petition in blue or black ink as they typically sign their ballot, stay within the lines, and print clearly their name and physical address as they are registered to vote. I will *not* cross out or change what the signer has written. I will sign the last page of the packet using my valid ID as a US citizen in front of a notary affirming that I watched those signing the petition/s assigned to me. I am doing this as a volunteer and will not pay anyone to sign. Signing the petition gets the issue onto the ballot regardless how the person will vote. If someone wishes to remove their name after signing, they may contact the Secretary of State's Office. I agree to attend a brief on-line training.
